

Electrical Tester

When:

At least one 4 hour shift per month, preferably more!

Where:

Habitat ReStore, 7130 Winchester Rd., Memphis TN, 38125

Description:

Volunteers are needed to test donated lighting, repair fixtures if needed, hang fixtures in lighting section of the store, and keep the lighting section clean and organized. If you have experience in electrical work, like to tinker and work with your hands, or are willing to learn, then this job is for you!

Responsibilities:

- Learn the lighting “process,” including assessing their condition, what parts are needed for repairs (if any), and pricing.
- Test light fixtures, lamps, and other electrical donations to assess working condition.
- Choose repair projects based on ability.
- Assess feasibility of the repair and what parts are needed to complete the repair, if any.
- Price light fixtures and accessories and place on sales floor.
- Clean up after all volunteer shifts, so that the repair area is ready for the next volunteer.

Requirements:

- Knowledge of and commitment to the mission of Habitat for Humanity of Greater Memphis
- Ability to work closely with ReStore staff, volunteers, Habitat homeowners and customers
- Comfortable asking questions
- Self-sufficient, cooperative attitude
- Excellent customer service skills
- Ability to bend, squat, or stand for long periods of time
- After a short “audition” period, at least a once a month commitment is needed, but more often is preferred.

Training:

On-site training is provided by a ReStore manager or lead volunteer. Most volunteers are fully trained within three to four volunteer shifts.
